HOLDERS OF

Military Land Warrants,

FOR THE PURPOSE OF LOCATING.

JAMES E. SMITH as early as the 2d of Sept. shortly after his return from viewing the Military Land, offered his service to the holders of Military Land Warrants for the purpose of classing, registering and locating them, in consequence of an arrangement made with Mr. James Johnson in July preceding, on the land, for the purpose of exploring the sections in the whole survey. This business having been carried into compleat effect by Mr. Johnson, with the assistance of an intelligent inhabitant of that country, they having taken notes descriptive of the situation, soil and natural advantages attached to each section in the whole survey. Mr. Johnson being now here with those notes, together with the said J. F. Smith having a compleat copy of the Surveyor General's return, made to the Treasury Department of the Township surveys.

Being thus informed the subscribers, jointly, offer their services to the holders of warrants of the above description, to receive, register and locate, for which one tenth part of the land located will be required as a compensation—for locating where the registry is already made, as may be hereafter agreed on by applying to either of the subscribers. Such of the honorable the members of Congress as may now hold, or may receive warrants from their friends before the 11th of February next, by addressing a line to either of the subscribers, through the medium of the Post Office, will be waited on agreeable to their appointment.

Foreign Intelligence.

LONDON, November 20.

ADMIRALTY-OFFICE, Nov. 18.

Copy of a letter from captain Macnamara, of His Majesty's ship Cerberus, to Admiral Kingsmill.

"Cerberus, off St. Andre,
Oct. 12, 1799.

"SIR,

"On the 20th, at 5 P. M. Cape Ortugal bearing S. S. W. or 9 leagues, a fleet was discovered from our main-head, standing to the S. E. I stood toward them, and at 8 P. M. I hailed one of the leading frigates, and, nearly touching, brought her to action. The enemy now seemed only to wish to join his squadron to leeward, as he was making sail for that purpose, and his fire was not very brisk. To obviate his intentions, I wore, and engaged him under his lee. At half past 8, his fire was completely silenced; but all my efforts to take possession of him were rendered fruitless, by the rest of his squadron coming up to support him, which I now found to consist of five frigates and two brigs. On hauling up, to prevent being being raked, we nearly fell on board of one of them, and carried away her main top-sail yard. Thus engaged till half past 9 o'clock, the greatest part of that time keeping up a fire on both sides, I was under the mortifying necessity to haul off. I then laid hold of one their convoy, which I was obliged to set fire to, as the enemy's squadron was within a mile, standing towards us, ready to support each other. That very zealous officer, Lieut. Stacpole, performed this service in the jolly boat, blowing hard, and in a heavy sea. The Cerberus only suffered in her sails and rigging, and four men wounded; which I attribute to the confusion which a close and steady fire, and an unexpected attack, must have thrown the enemy into. I observed, in the latter part of the action, some of their frigates fired whole broadsides without shot. I have to regret I had not another frigate with me, as in that case, I am confident I should have destroyed the greatest part of the enemy's convoy, and have taken some of their men of war.

"I need not say that the officers and ship's company of His Majesty's ship under my command, shewed themselves cool and intrepid men; and though I have not been fortunate enough to take any of the enemy's squadron, I hope I may be allowed to speak of the able assistance I received from Lieut. Stackpole on the quarter deck, and the spirit and alacrity with which he executed all my orders, during an action in which manœuvre was so necessary to prevent the enemy from having that advantage over us which so great a superiority must otherwise have given them. The names of the ships composing the enemy's squadron, I herewith send you, as given to me by the prisoners taken out of the ship we burned.

"I have the honor to be, &c.

BRITISH LITERATURE.

Mr. Southey is engaged in a metrical romance on the destruction of the Dom Daniel, under the title Thalaba, the destroyer.

Mr. Joseph Cooper Walker is arranging materials for an essay on the revival of the drama in Italy; by way of supplement to his "historical memoirs on Italian Tragedy."

Major Ouseley's translation of the Mesalek Memalek, a geographical MS, originally written in Arabic, will be forth coming with the new year. It contains curious and accurate descriptions of Persia, Arabia, part of Hindostan, Transoxania, Syria, Egypt, Barbary, and other parts of Africa. The work was composed between the years 900 and 1,000 of the Christian æra.

Dr. John Reid speedily favours the public with an interesting treatise on Infantry; a subject no less important in its nature than curious in disquisition.

WOMEN AT PARIS.

[*From a French Journal.*]

Never were women of ton more lightly cloathed, and never was white so fashionable. Soap is become no less indispensible than bread. Our fair females are covered with transparent shawls, which float and flutter over their shoulders and upon their bosoms, which are seen through them; with gauze veils, which conceal one half of the face to pique our curiosity, and with robes so light, so loose, so thin, that the wearers seem to be almost naked. In this Sylph's dress they run from place to place all the morning, noon, and night; one sees nothing but white shades flitting through every street: it is the dress of the ancient vestals; and our women resemble *Iphigenia* in *Aulis* on the point of being immolated.

How enriched must the East India Companis be by the sale of these articles, which are inseperable from the toilets of the fair: for them, art furnishes an eternal spring; for them, the concerts of Paphos and the music of Idalia enchant the ear; in voluptuous indolence they pervade every part of the metropolis, appear at every public place, frequent every theatre, are seen every where, and remain long no where. In their light cars, they fly along the streets, and the morning dawns only to give the signal or the taste of a new pleasure, an extraordinary spectacle, a dressed ball, or an aerostatic ascension with appropriate music, loud when the balloon begins to mount, diminishing the sound as it ascends, and when it is nearly out of sight, ravishing the soul by notes dying away in the softest cadence, and in murmurs scarcely to be heard. At all these sights these white shades are seen—they pass before our eyes, like the fine figures of a picture; they appear to be without hands. but they speak with their eyes.

What must we think of these dresses, these daily *promenades*, this assiduous attendance at public places? Our women of *ton* occupy all the first seats, and we see them again at the illuminations. Does Pactolus roll his stream through Paris? Who pays for all these pleasures? Does the capital contain more millions than any other city in the world? And are the women of Paris the only ones in the universe who enjoy the privilege of diverting themselves without ceasing, and of never working? To read romances, to dance, to do nothing, are the three rules which they scrupulously observe. The time is past in which their clothes were the works of their hands. Needlework is unknown to them, and they think themselves born for enjoyments renewed without ceasing, and never interrupted.

Among no people, in no time, in no city, have women ever enjoyed such an independence, or devoted themselves to such indolence.

Plato says, in his book upon laws, that the secret of increasing the number of men one half would be to employ women in the same exercises as men. Platt says the beautiful Louisa was a very impertinent fellow.

Is it the revolution that has been the signal of this excessive liberty? Twenty years ago young women would not have stirred a step from home without their mothers; they walked as it were under their wings, their eyes modestly thrown upon the ground. The man whom they dared to look at was the one whom they were permitted to hope or to choose for a husband. Has the revolution changed this subordination? Now they run about morning and evening in full liberty—to dress, to walk play, laugh, draw cards, dispute about their adorers, such are their occupations. No scissars, no thimbles; they know no wound but that inflicted by the arrow of cupid, and those wounds are so slight! Satisfied with having nothing to fear from the confessional, they become mothers without shame; they nurse their children openly, and carry them to the Municipality without fear. There is no public walk in which we do not see children of nearly two years old, playing on the knees of the mother of eighteen. The public places swarm with these innocent creatures, who announce a new regime and the absolute destruction of all former ideas.

Who can calculate the effects of this new system of love, of this new career opened to passion so active ever of itself? What powerful objects of seduction must a ribband, a hat with flowers, or a robe become, in a city where balls are in a state of permanence, to which girls of twelve years of age are suffered to go often alone? The most improper books get into their hands, the poisonous foam of false philosophy comes from their lips, and debauchery is mistaken for love. Debauchery is erected into a system; and untimely unions can only promise and prepare a weak and feeble generation.

A valuable Estate for sale,
IN VIRGINIA.

THE NORWICH LANDS, MILLS, AND APPENDAGES.

THIS ESTATE

IS situated in the county of Henrico, on Four Mile Creek, near its junction with James River, about 12 miles from the city of Richmond, and nearly the same distance from Petersburg.

There is about 250 acres of land, and the whole of it good soil for agriculture, and a full proportion of it very suitable for grass; about one half of it is cleared and in a state fit for immediate cultivation; the rest is in woods and well covered with useful timber of different kinds. As to the improvements on the farm, there is a decent dwelling house with the usual out houses, a good brick spring house, and a large new excellent barn, one story of brick, and the other framed work, two orchards of apples and of peaches, in full perfection and good fruit.

The mills consist of three pair of bur stones for the grinding of wheat, and one pair of stones for grinding of corn, all of proved good quality, worked by overshot water wheels and double gears, with all the late improvements for skreening, cleaning, bolting and elivating the wheat and flour, all executed in the best manner and of the best materials and quite new—The mill house is large and convenient, being 46 feet by 72 feet with five floors, the two lower stories are brick. the rest framed work executed in the most substantial manner; the house and machinery of the mills will be found unexceptionable, and they are so situated as to be free from all risque from the freshes or inundation of the water courses—There is a very convenient brick bake house two stories high, with two large ovens; a very good house for the proprietor or manager, a store room, counting room, kitchen, &c. also suitable houses for millers, coopers, and bakers—The tide water from James River flows to the walls of the mill, where boats of three to four hundred bushels burthen can receive their loads out of the mill, and in one miles distance, ships of any size that navigate James River, can load in great safety.

The neighborhood is healthy—very respectable as to inhabitants, being mostly independent farmers, and the soil is in general very justly esteemed equal to any on James River, for the growing of wheat; upon a moderate calculation, the average annual crops of the neighborhood equally convenient if not more so, to the Norwich Mills, than to any other market, amount to between thirty and forty thousand bushels of wheat. Mr. John P. Gordon who lives on the premises at present, will shew the whole to those who may incline to view it.

I would prefer a purchaser who could pay down the principal part of the purchase money, and would give a very advantageous bargain—or I will sell on a credit convenient to the purchaser, the interest being paid annually. I will wait for a purchaser till the 15th day of March next, and if not then sold, I will be glad to treat with a tenant for a lease, on terms which may be mutually agreeable. I have offered the whole of this estate for sale, on a presumption that the purchaser of the mills would incline to have the land also, for a supply of building timber, oven wood and hoop poles; but if it be more agreeable to him to take the mills and a few acres of land, he shall be accommodated accordingly.

Extract of a letter from the gallant Commodore Truxton, to his friend in this city, dated on board the Conſtellation, Baſſeterre Roads, Jan. 22, 1800.

"I have not time to ſay much at preſent, having arrived only two days ago, and have not yet been on ſhore. A 44 gun ſhip, and a corvette of 28 guns are at Guadaloupe. I ſhall give them a fair challenge to come out in a day or two, and am hurrying to put all things in readineſs for that purpoſe."

The Richmond of this port, from Batavia, homeward bound, has been captured by a French pirate after a ſevere action, in which the ſupercargo was killed, and the mate wounded. The Richmond has been ſince recaptured and carried into Martinico by a Britiſh frigate.

It is with pleaſure we announce to the Commercial part of the community, that buſineſs at Hamburgh is reviving—That for ſome time previous to the 5th Dec. there had been no failures of conſequence. There is, therefore, a well grounded hope that the mercantile diſtreſſes of that city are ſubſiding. The Charlotte, Greenfield, is the channel through which this information is received—by which arrival we received papers to the 3d Dec. but were unable to obtain tranſlations for this day's Gazette.

MR. FENNO,

A writer in a New-York paper, who tells us he has written a book by way of promoting His ſale, complains *with very becoming modeſty* of our humble dependence on *European* authors, which he ſays is attended with this ſerious evil, "If they have fallen into error on any ſubject we muſt take it as they give it"—as if this cauſe of complaint would not apply to his own as well as to any other work, *for I cannot ſee what Europe* has to do with the queſtion, to bring this home to the Egotiſt I will recommend him to one of his own abſurdities reſpecting a dark day in May 1780. and to read Profeſſor Williams, of the Univerſity of Cambridge, whoſe philoſophic reſearches on this ſubject ſtand unrivalled; they have proved beyond all doubt, that the fire of the woods, which, for more than ſix weeks, pervaded all the whole frontier of New England, and the adjacent borders of Canada, for between 3 and 4 hundred miles, was the ſole cauſe of the Phenomenon, unuſual only for its extent and duration, for the inhabitants in the neighbourhood of theſe foreſts are, in every dry ſeaſon, ſubject to view what for this reaſon is to them no cauſe of alarm.

During this darkneſs, which had been ſince the clearing of the adjacent woods, unuſual at Haverhill, in *Maſſachuſetts*, ſeveral gentlemen of great reſpectability on obſerving both with the naked eye, a large quantity of black and aſh coloured particles which were continually falling to the earth, took this method to examine their ſubſtance, they expoſed tubs of water, and from the ſurface they collected in a very ſhort time ſufficient quantities of the object of their enquiries, and with the naked eye only, were enabled to determine from the ſize and ſhape of a great portion of the particles, that they were the aſhes or remains of burnt oak, cheſnut, maple and fir leaves. CONGRESS.

HOUSE OF REPRESENTATIVES.

FRIDAY, FEB. 15.

Mr. D. Foſter, from the committee of claims made report on the petition of Hoſnie Smith, that the prayer thereof ought not to be granted—which was concurred in by the houſe.

Mr. Hanna preſented a petition of a number of the inhabitants of the N. W. Territory, praying a confirmation of their titles to certain lands purchaſed from Judge Symmes.—Referred to the committee appointed on the ſubject of public lands.

Mr. A. Foſter called up for conſideration the reſolution which he laid on the table, for appointing a committee to enquire whether any alterations ought to be made in the compenſation allowed to the officers of the two Houſes of Congreſs—which was agreed to and three members appointed.

Mr. Smith, from the committee of commerce and manufactures, who were directed to enquire into the operation of the exiſting law, ſuſpending the intercourſe with France, made a report which was committed to the committee of the whole houſe on the bill further to ſuſpend the commercial intercourſe with France.

The committee ſtate it to be their opinion, that the law had been faithfully executed by the officers of government, but that the principles of it had been evaded by individuals acting from intereſting motives, and contains a variety of information in a letter from the Secretary of the Treaſury to the Chairman of the Committee propounding ſeveral queſtions relative to the exiſting law, and ſuggeſting meaſures to prevent fraud in future.

A written meſſage was received from the Preſident of the United States, by his ſecretary Mr. Shaw, tranſmitting a copy of the laws enacted for the government of the territory of the United States N. W. of the river Ohio.

The meſſage and the papers accompanying it, were referred to the ſelect committee to whom were referred the petitions and remonſtrances of ſundry inhabitants of the Miſſiſippi territory.

The houſe went into committee of the whole on the bill further to ſuſpend the commercial intercourſe between the U. States and France, and the dependencies thereof, Mr. Morris in the chair.

Mr. Nicholas moved to amend the following part of the firſt ſection, to wit, "and if any ſhip or veſſel owned, hired, or employed by any *perſon or perſons reſident within* the United States," ſhall directly or indirectly proceed to a French port, &c. by ſtriking out the words in *italic*, and inſerting "*citizen or citizens of*" thereby giving neutrals, reſident within the United States, or elſewhere, the liberty of trading from the ports of the United States to thoſe of France in neutral bottoms.

Mr. Sewall conceived this amendment would render the bill intolerable to the citizens of the United States, who would view with a jealous eye, foreigners among them, enjoying the beneſits of a trade they were precluded from, and employing our own veſſels and ſailors, for that purpoſe.

Mr. Smith ſaid, the original law now in exiſtence, was intended, to embrace two objects—Firſt, the cutting off all proviſions and ſupplies from the French Weſt Indias Iſlands—Secondly, and the main object, preventing our property from entering the ports of France and being ſeized and confiſcated, an open rupture being at that time conſidered as unavoidable—and both theſe meaſures were alſo intended to coerſce the French government to an accommodation—But theſe objects had failed, and their policy, inſtead of beneſitting, had injured this country. He was therefore in favor of the amendment.

What, ſaid Mr. S. will be the operation of this amendment? Gentlemen were miſtaken when they ſuppoſed our own veſſels or our own ſailors would be employed to carry on this trade—Neutral veſſels could be alone employed. If a ſingle American ſailor were found on the liſt of the Role d'Equipage, the whole property would be liable to condemnation, taken by a French Cruiſer—And they were alſo miſtaken if they ſuppoſed any protection would be required from the American Government. What would be its operation on our Commerce? Are we not now reſtricted from carrying our property, and ſhall we not be reſtricted by the bill upon the table—and how then ſhall we ſuffer by adopting the amendment? It had been ſaid, we might carry on an intermediate trade. It was true this had, and might ſtill be done; but the inconveniences and the riſks were incalculable.

And what, exclaimed Mr. S. would be its operation on our agricultural intereſts? An immediate advantageous ſale for our produce would be offered, which now lies rotting in our warehouſes—Double riſks and double inſurances would be ſaved, by purchaſers coming into our market, and giving a fair price for our commodities.

If we were in actual war, ſaid Mr. S. would it not be good policy to permit neutrals to purchaſe our produce, and thereby enable us to carry on that war; to ſupport that navy which was raiſed for our protection; to enable the citizens to pay the additional burthens which our exigencies require; and finally prevent the ſinking of our revenue, as was the caſe laſt year. It was this policy which enabled Great Britain to meet her extraordinary demands—It was this policy which we ought to purſue, and which he hoped the citizens of the United States would not be deprived the benefit of.

A long debate enſued upon Mr. Nicholas's amendment, and the committee roſe, and obtained leave to ſit again, without taking the queſtion upon it.

Mr. Kittera ſaid, he perceived a diſpoſition to travel over the whole of the arguments which had been formerly uſed relative to the expediency of ſuſpending the intercourſe with France; and as ſome delay muſt enſue thereby, and it was important for the citizens of the United States to know whether the prohibition would be continued, he would move the following reſolution, to wit:

Reſolved, *That a committee be appointed to report a bill to continue in force for one month the act intituled "An act to ſuſpend the commercial intercourſe between the United States and France, and the dependencies thereof."*

Ordered to lie on the table.

Adjourned till Monday.

New-York, February 14.

Yeſterday arrived here, the ſhip Charlotte, capt. Greenfield, from Hamburgh in 67 days. Left at Hamburg on the 5th Dec. the ſhip Hamilton, of Baltimore, for London and the ſhip Mary-Ann, for Philadelphia.

Dec. 10, lat. 48, 35, long. 7, 30, was boarded by the Engliſh ſhip Mercury, capt. Rogers, from Newfoundland, by whom he was detained three hours; during which time they aſſumed the command of the Charlotte, and carried away her fore-top and fore-top-gallant maſt by the cap. The Mercury then had two American prize brigs in company; one of which was from Baltimore, the other was conjectured to be from this port, as capt. G. was informed ſhe had New-York, papers on board.

Dec. 27, lat. 45 18, long. 32 36, fell in with the ſhip Brothers, capt. John Wiley, 57 days from Jamaica bound to Glaſgow—had loſt her main, fore and mizen-top-maſts, jib-boom, and rudder, with 8 feet water in her hold. The captain of the Brothers, requeſted that himſelf and crew might be taken out; and though it was then blowing a gale, 8 of her men came on board at the riſk of their lives, but the boat was ſtove to pieces immediately after they left it, and Adams Bills, of Philadelphia, carpenter of the Charlotte, fell over board and was drowned.

The next day the Charlotte's boat ran along ſide of the wreck, and took off the remainder of the crew, making 17 in all—a gale then coming on, they left the wreck with her lower deck under water. Capt. Greenfield, in thus increaſing his ſhip's company, like to have ſubjected himſelf to fatal difficulties; being thereby reduced to an allowance of proviſions for three weeks previous to their arrival at this port.

CHARLESTON, Jan. 23.

We announce to the public, with infinite concern, the deceaſe of our valuable fellow-citizen, His Excellency EDWARD RUTLEDGE, Eſq. Governor and Commander in Chief of this State, who cloſed on Thurſday night a life of fifty years, devoted to the cauſe of philanthropy and the intereſts of his country. Amongſt the patriots of 1796, this excellent character held a diſtinguiſhed ſituation; and his integrity, his zeal, and his exertions in our revolutionary war, aided by uncommon talents, ranked him amongſt thoſe great political pillars, by which the fabric of American independence might be ſaid to be ſupported. His eloquence, which ſhone forth in the ſenate and at the bar, was brilliant and impreſſive; it pleaſed the ear and went home to the heart; rich in ideas, and happy in his manner of expreſſing them, he was accuſtomed to command attention, to delight as well as to perſuade his audience. The many important ſervices rendered by this virtuous man to the United States, and particularly to this his native land, are faithfully recorded in the page of hiſtory; they are engraven on the hearts of his countrymen, and the recollection of them ſhall not die.

If we view his conduct in the walks of private life, there is an abundant ſcope for the moſt heartfelt eulogium; as the huſband, the parent and the relative, he may ſometimes be equalled, but he will never be ſurpaſſed. Mild and endearing in his deportment, with the accompliſhed manners of the gentleman, he diffuſed on all around him the rays of his own good humour and urbanity. He delighted to do good; and to relieve the widow, and to wipe away the tear of the orphan, was to his mind of ſenſibility a feaſt indeed. In the midſt of the exerciſe of every virtue which makes man amiable, he is taken from us!

Carolinians! ye have juſt wept for the loſs of your Waſhington, and ye will not be ſparing of your tears over the urn of your Rutledge.

To the nervous, weak, debilitated, ſedentary and conſumptive,

IS RECOMMENDED, THE CELEBRATED

BOTANICAL TEA,

Inſtead of Foreign Tea.

THIS Tea is univerſally approved of in preference to foreign tea, as the moſt pleaſant, wholeſome, enlivening, invigorating, and powerful reſtorative ever adopted, for perſons of all ages, but particularly thoſe of the above deſcription; as it will infallibly ſtrengthen, and eventually repair a bad conſtitution.

It is taken for breakfaſt inſtead of foreign tea, and as our firſt aliment in the morning is deſigned to recruit the waſte of the body from the night's inſenſible perſpiration; it is well known, and an important fact which ought to be borne on the mind of every one, that foreign teas are inadequate to ſuch purpoſes, as all will allow; it unnerves and wears the ſubſtance of the ſolids. This ſubſtitute is profeſſionally approved as a ſalutary and nouriſhing diet, or as a morning and afternoon beverage.

THE BOTANICAL TEA

is ſingularly efficacious in all caſes of inward weakneſs, trembling or ſhaking of the hands, loſs of appetite, (particularly in the morning) depreſſion of ſpirits, windy complaints. It ſpeedily relieves the head and ſtomach in gouty or rheumatic caſes; and in caſes of weak digeſtion, but particularly after making too free with the conſtitution, by an immoderate uſe of wine, ſpiritous liquors, or any intemperance; it is happily ſuited to hot climates, and is adopted and approved of by ſome of the firſt families in the United States and in the Weſt Indies, for its nouriſhing and invigorating properties; and in bilious caſes where the appetite has failed, it is a ſovereign remedy.

As proofs of the evil tendency from the uſe of foreign teas, is ſubjoined the opinions of ſome of the firſt phyſicians in Europe.

ON FOREIGN TEA

"The cauſe of the palſy is drinking too much tea; many imagine tea has no ill effect upon the nerves, this however is a miſtake: it effects the nerves, which is evident from its cauſing the hands to ſhake, preventing ſleep, occaſioning giddineſs, dimneſs of ſight, ſickneſs, &c.

Dr. BUCHAN.

"Strong infuſions of India Tea, not only unnerves but deſtroys the bodily functions"

Dr. H SMITH.

And in another publication, Dr. Hugh Smith ſays, "Tea is hurtful both to the ſtomach and nerves; it cauſes phrenſies, delirium, appoplexies, and other diſorders of the brain, which are produced by the nerves being thus diſarranged and debilitated, the digeſtive faculty of the ſtomach is much weakened, and the body failing of the recruiting juices, muſt tend to emaciation and the whole frame thus rendered one ſyſtem of diſtreſs and infirmity"

The juſtly celebrated Dr. Tillot ſays, "This faſhionable beverage, India Tea, is extremely pernicious, it deſtroys the ſtrength of the ſtomach the vicera, the blood, the nerves, and eventually the whole body."

Dr. Moliere ſays, "In bilious complaints, tea is extremely hurtful"

Dr. Fothergill. "Tea is very offenſive to the lungs, and impedes reſpiration; it is therefore highly improper for perſons who have a difficulty of breathing, or any complaint of the lungs or nerves."

Dr. Saunders ſays, (ſee his Medical Mem.) "Indian tea renders men impotent and women barren; hence we may account for the perſons in the higher circles having few children, and thoſe in general very ſickly and unhealthy."

For more accounts of this tea, ſee the ſecond edition of Dr. Church's pamphlet.

This botanical tea is calculated to produce the contrary effects, is the reſult of long and indefatigable ſtudy and experience, and by perſeveringly adopting its uſe, will be found to anſwer the effects herein mentioned.

It is cheaper than India tea—one packet at 75 cents, will laſt one perſon for breakfaſt nearly one month—canniſters containing eight packets, five dollars.

*** The celebrated BOTANICAL TEA is prepared only by Dr. James Church, at his Diſpenſary, No. 137 Front-Street, near the Fly-Market, New York, and ſold wholeſale and retail, by Meſſrs. H. and P. Rice, 16 South Second Street, Philadelphia, and Mr. Jas. Rice, Baltimore.

IN compliance with the inſtructions of the Committee for watering the city, and with my own inclinations, every poſſible admittance and information has been given to thoſe citizens who have viſited the Works during their progreſs. The Engines are now arrived, and are immediately to be put up, and it is hoped that it will be thought reaſonable and juſt, both to the Public, and to the Contractor for the Engines, that the workmen ſhould not be interrupted. As a very few months will fully gratify the curioſity of the citizens, by ſhewing them the Engines in full operation, a temporary excluſion of all viſitors from the Engine houſes cannot appear improper.

JUST RECEIVED,
AND FOR SALE
By WILLIAM Y. BIRCH,
STATIONER,
No. 17 *South Second Street,*
THE FOLLOWING
VALUABLE MEDICINES.

Infallible Ague and Fever Drops.

A long eulogium on the virtues of this medicine is unneceſſary, as the money will be returned if patient is not relieved—it never having failed in many thouſand caſes; not one in a hundred has had occaſion to take more than a bottle, and numbers not half a bottle.

Hahn's Anti-bilious Pills.

Dr. HAHN's
TRUE AND GENUINE
German Corn Plaiſter.

An infallible remedy for corns, ſpeedily removing them root and branch, without giving pain.

The Genuine Perſian Lotion.

So celebrated among the faſhionable throughout Europe, as an invaluable coſmetic, perfectly innocent and ſafe, free from corroſive and repellant minerals (the baſis of other lotions) and of unparaleiled efficacy in preventing and removing cutaneous blemiſhes of the face and ſkin of every kind, particularly, freckles, pimples, pits after ſmall pox, inflammatory redneſs, ſcurfs, tetters, ring worms, ſun burns, prickly heat, premature wrinkles, &c. The Perſian Lotion operates mildly, without impeding that natural, inſenſible perſpiration, which is eſſential to health—yet its effects are ſpeedy and permanent, rendering the ſkin delicately ſoft and ſmooth, improving the complexion and reſtoring the bloom of youth; never failing to render an ordinary countenance beautiful, and a handſome one more ſo.

Sovereign Ointment for the Itch,

Warranted an infallible and immediate cure, at once uſing; being the moſt ſpeedy, effectual and pleaſant remedy ever offered to the public, and for the ſatisfaction of the timorous, the proprietor maketh oath, that this ointment does not contain a ſingle particle of mercury or any other pernicious ingredient in its compoſition, and may be uſed with the moſt perfect ſafety by pregnant women and on infants newly born.

Patent Indian Vegetable Specific,

For the cure of Venereal Complaints of every deſcription.

An extenſive trial of near four years has proved the vegetable ſpecific to be effectual in expelling the veneral virus, however deeply rooted in the conſtitution, and has reſtored health to many who have been brought to the verge of the grave by the improper adminiſtration of mercury. Within this period upwards of eight thouſand patients have experienced its ſalutary effects.

With the medicine is given a deſcription of the ſymptoms which obtain in every ſtage of the diſeaſe, with copious directions for their treatment, ſo as to accompliſh a perfect cure in the ſhorteſt time and with the leaſt inconvenience poſſible.

HAMILTON's
Worm deſtroying Lozenges,

Which have, within nine months paſt, relieved upwards of EIGHTEEN THOUSAND PERSONS of all ages in various complaints ariſing from worms and from foulneſs or obſtructions in the ſtomach and bowels.

This medicine bears no analogy whatever to others of ſimilar title ſo commonly complained of, as operating with a degree of violence, ſufficient, not only to kill worms, but ſometimes to endanger the patient's life; on the contrary, a peculiar excellence of this remedy is, its being ſuited to every age and conſtitution, contains nothing but what is perfectly innocent, and is ſo mild in its operation, that it cannot injure the moſt delicate pregnant lady, or the tendereſt infant of a week old, ſhould no worms exiſt in the body; but will, without pain or griping, cleanſe the ſtomach and bowels of whatever is foul or offenſive, and thereby prevent the production of worms and many fatal diſorders.

☞ At the place of ſale may be ſeen many remarkable caſes of cures, the authenticity of which any perſon may aſcertain, either by letter or perſonal application—not being performed in Europe, nobody knows where—but at home.

Perſons wiſhing to procure any of the above medicines genuine, muſt apply ONLY as above—and likewiſe obſerve, that the ſignature of Lee & Co. (who are appointed the general agents for the United States) is paſted on the outſide of each, without which they cannot be genuine.

At the above place may be likewiſe had,

AFFIDAVIT.

City of New-York, ſs.

William M'Cloughan reſident of Gibb's alley, in the city of New-York, cooper, voluntary maketh oath that he was ſeverely afflicted with a conſumption for upwards of 18 years, that he laboured under the moſt inexpreſſible affliction with a violent cough and ſhortneſs of breath, that he could not lie down in his bed for weeks together, but was obliged to be proped up by pillows or in an armed chair, and in the day time unable to attend his buſineſs; that at length he was ſo reduced and waſted away, as to be ſcarce able to walk at all; that he had tried the ſkill of many reſpectable medical men, and has expended a very conſiderable ſum of money, and has taken a great deal of medicines without effect. That at laſt he deſpaired of ever getting cured, till he, through recommendation, took Dr. Church's cough drops, from which he found very preſent relief, and by perſevering in the uſe of them, he is now perfectly reſtored to health, and has had no return or ſymptom of his diſorder ſince.

Jacob De La Montagnie, Alderman.

Copy of a Letter from capt. Henry.

Dear Sir,

In the year '95, I had the misfortune to break a blood veſſel, which was ſucceeded by a ſevere complaint on my lungs, cough, ſhortneſs of breath and ſpitting up of matter and blood, with every other diſagreeable ſymptom of a diſorder of the lungs; indeed ſo afflicting was this diſorder, that I could not reſt at night, nor could walk 200 yards in the day, without ſtopping to cough and reſt myſelf a number of times. This diſorder continued to increaſe upon me, till I was much waſted in body, and exceedingly weak. Seeing your advertiſements in the public papers, early in the laſt ſummer, I commenced taking your juſtly celebrated Cough Drops, which I perſevered in the uſe of, for ſometime; I have now the happineſs of informing you, my lungs are perfectly ſound; I have no ſhortneſs of breath, or ſpitting up of matter or blood; my cough is a little troubleſome in the morning, but no other time. I am Sir,

Your's every reſpectfully,
WILLIAM HENRY.

To Dr. CHURCH.

Sir,

For upwards of twelve years, I have laboured under a ſevere cough, ſhortneſs of breath, ſpitting of matter from my lungs, and often clotted blood, till at length I was ſo reduced as to be unable to walk acroſs my room, and owing to the violence of my cough and ſhortneſs of breath could get no reſt day or night. Hearing of your excellent medicine, the Cough Drops, I procured a bottle; I took a doſe as ſoon as I got it, from which I found inſtantaneous relief, and by continuing it for three days, I bleſs God I am reſtored to perfect health. As I believe, you have been the inſtrument in the hands of Providence, by ſaving my life, I muſt entreat you to publiſh this for the benefit of any who may be in my ſituation, as I am confident it is one of the beſt medicines in the world for thoſe complaints.

I am Sir, your grateful ſervant,

The nervous, debilitated, or ſedentary, whoſe diſeaſes have in a great meaſure baffled the powers of medicine, would do well in making trial of

The American Botanical Tea,

which need only to be taken to acquire univerſal approbation; not only for its balſamic and reſtorative properties, in all decays from age, intemperance or diſeaſe; and in preſerving a good conſtitution and mending a bad one, but for its claims to public favor, as a pleaſant and wholeſome breakfaſt; which will be found infinitely ſuperior to Foreign Tea. Artiſts and others whoſe profeſſions require a ſteady hand, will find great relief from the uſe of this vegetable diet, but particularly thoſe who lead a ſedentary life

A package at 75 cents, will laſt one perſon for breakfaſt, nearly one month.

It is ſold wholeſale and retail only by the inventor and ſole proprietor, Dr. James Church, 137 Front ſtreet, New York; Meſſrs. H. and P. Rice, 16 ſouth Second ſtreet, Philadelphia; and Mr. Rice, Baltimore.
